

Filling Out the Forms

The Science Fair forms are all in PDF format. Information can be entered via a keyboard in the blank spaces. This is the preferred method instead of hand-writing.

Student Checklist (1A)
This form is required for ALL projects.

1. a. Student/Team Leader: _____ Grade: _____
Email: _____ Phone: _____
b. Team Member: _____ c. Team Member: _____

2. Title of Project: _____

3. School: _____ School Phone: _____
(If multiple schools, list of the team leader or list all schools).
School Address: _____

4. Adult Sponsor: _____ Phone/Email: _____

5. Does this project need SRC/IRB/IACUC or other pre-approval? ☐ Yes ☐ No Tentative start date: _____

6. Is this a continuation/progression from a previous year? ☐ Yes ☐ No
If Yes:
a. Attach the previous year's ☐ Abstract and ☐ Research Plan/Project Summary
b. Explain how this project is new and different from previous years on
☐ Continuation/Research Progression Form (7)

7. This year's experimentation/data collection:

Actual Start Date: (mm/dd/yy) _____ End Date: (mm/dd/yy) _____

8. Where will you conduct your experimentation? (check all that apply)
☐ Research Institution ☐ School ☐ Field ☐ Home ☐ Other: _____

9. Source of Data:
☐ Collected self/mentor ☐ Other Describe/url: _____

10. List the name and address of all non-home and non-school work site(s), whether you worked there virtually or on-site:
Name _____
Address _____
Phone/email _____

11. Complete a Research Plan/Project Summary following the Research Plan/Project Summary instructions and attach to this form.

12. An abstract is required for all projects after experimentation.

Checklist for Adult Sponsor (1)
This completed form is required for ALL projects.

To be completed by the Adult Sponsor in collaboration with the student researcher(s):
Student's Name(s): _____
Project Title: _____
1. ☐ I have reviewed the SEF Rules and Guidelines, including the science fair ethics statement.
2. ☐ I have reviewed the student's completed Student Checklist (1A) and Research Plan/Project Summary.
3. ☐ I have worked with the student and we have discussed the possible risks involved in the project.
4. ☐ The project involves one or more of the following and requires prior approval by an SRC, IRB, IACUC or IBC:
☐ Humans ☐ Potentially Hazardous Biological Agents
☐ Vertebrate Animals ☐ Microorganisms ☐ DNA ☐ Tissues
5. ☐ Items to be completed for ALL PROJECTS
☐ Adult Sponsor Checklist (1) ☐ Research Plan/Project Summary
☐ Student Checklist (1A) ☐ Approval Form (1B)
☐ Regulated Research Institutional/Industrial Setting Form (1C) (when applicable; after completed experiment)
☐ Continuation/Research Progression Form (7) (when applicable)

Additional forms required if the project includes the use of one or more of the following (check all that apply):
☐ Humans, including student designed inventions/prototypes. (Requires prior approval by an Institutional Review Board (IRB); see full text of the rules.)
☐ Human Participants Form (4) or appropriate Institutional IRB documentation
☐ Sample of Informed Consent Form (when applicable and/or required by the IRB)
☐ Qualified Scientist Form (2) (when applicable and/or required by the IRB)
☐ Vertebrate Animals (Requires prior approval, see full text of the rules.)
☐ Vertebrate Animal Form (5A) for projects conducted in a school/homefield research site (SRC prior approval required)
☐ Vertebrate Animal Form (5B) for projects conducted at a Regulated Research Institution, (Institutional Animal Care and Use Committee (IACUC) approval required prior experimentation)
☐ Qualified Scientist Form (2) (Required for all vertebrate animal projects at a regulated research site or when applicable)
☐ Potentially Hazardous Biological Agents (Requires prior approval by SRC, IACUC or IBC; see full text of the rules.)
☐ Potentially Hazardous Biological Agents Risk Assessment Form (6A)
☐ Human and Vertebrate Animal Tissue Form (5B) to be completed in addition to Form 6A when project involves the use of fresh or frozen tissue, primary cell cultures, blood, blood products and body fluids.
☐ Qualified Scientist Form (2) (when applicable)
☐ The following are exempt from prior review but require a Risk Assessment Form 3: projects involving protists, archaea and similar microorganisms, for projects using manure for composting, fuel production or other non-culturing experiments, projects using color change coliform water test kits, microbial fuel cells, and projects involving decomposing vertebrate organisms.
☐ Hazardous Chemicals, Activities and Devices (No SRC prior approval required, see full text of the rules.)
☐ Risk Assessment Form (3)
☐ Qualified Scientist Form (2) (required for projects involving DEA-controlled substances or when applicable)
☐ Other
☐ Risk Assessment Form (3)
☐ I attest to the information checked above and that I have read and agree to abide by the science fair ethics statement.

Adult Sponsor's Printed Name _____ Signature _____ Date of Review (mm/dd/yy) _____

Phone _____ Email _____

Form 1: Checklist for Adult Sponsor

This is required for ALL science fair participants!

Important information:

- The title cannot be more than 40 characters long (a space counts as a character)
- Complete #1-5, as well as the section under #5 (if applicable).
- Check the last box at the bottom of the form
- At the bottom, the adult sponsor had to print and sign their name, and provide their phone number and email
- The date has to be written in mm/dd/yy format

Checklist for Adult Sponsor (1)		
This completed form is required for ALL projects.		
To be completed by the Adult Sponsor in collaboration with the student researcher(s):		
Student's Name(s): _____		
Project Title: _____		
1. ☐ I have reviewed the ISEF Rules and Guidelines, including the science fair ethics statement.		
2. ☐ I have reviewed the student's completed Student Checklist (1A) and Research Plan/Project Summary.		
3. ☐ I have worked with the student and we have discussed the possible risks involved in the project.		
4. ☐ The project involves one or more of the following and requires prior approval by an SRC, IRB, IACUC or IBC: ☐ Humans ☐ Vertebrate Animals ☐ Potentially Hazardous Biological Agents ☐ Microorganisms ☐ rDNA ☐ Tissues		
5. ☐ Items to be completed for ALL PROJECTS ☐ Adult Sponsor Checklist (1) ☐ Student Checklist (1A) ☐ Regulated Research Institutional/Industrial Setting Form (1C) (when applicable; after completed experiment) ☐ Continuation/Research Progression Form (7) (when applicable) ☐ Research Plan/Project Summary ☐ Approval Form (1B)		
Additional forms required if the project includes the use of one or more of the following (check all that apply):		
☐ Humans, including student designed inventions/prototypes. (Requires prior approval by an Institutional Review Board (IRB); see full text of the rules.) ☐ Human Participants Form (4) or appropriate Institutional IRB documentation ☐ Sample of Informed Consent Form (when applicable and/or required by the IRB) ☐ Qualified Scientist Form (2) (when applicable and/or required by the IRB)		
☐ Vertebrate Animals (Requires prior approval, see full text of the rules.) ☐ Vertebrate Animal Form (5A)- for projects conducted in a school/home/field research site (SRC prior approval required) ☐ Vertebrate Animal Form (5B)- for projects conducted at a Regulated Research Institution. (Institutional Animal Care and Use Committee (IACUC) approval required prior experimentation.) ☐ Qualified Scientist Form (2) (Required for all vertebrate animal projects at a regulated research site or when applicable)		
☐ Potentially Hazardous Biological Agents (Requires prior approval by SRC, IACUC or IBC, see full text of the rules.) ☐ Potentially Hazardous Biological Agents Risk Assessment Form (6A) ☐ Human and Vertebrate Animal Tissue Form (6B)- to be completed in addition to Form 6A when project involves the use of fresh or frozen tissue, primary cell cultures, blood, blood products and body fluids. ☐ Qualified Scientist Form (2) (when applicable) ☐ The following are exempt from prior review but require a Risk Assessment Form 3: projects involving protists, archae and similar microorganisms, for projects using manure for composting, fuel production or other non-culturing experiments, projects using color change coliform water test kits, microbial fuel cells, and projects involving decomposing vertebrate organisms.		
☐ Hazardous Chemicals, Activities and Devices (No SRC prior approval required, see full text of the rules.) ☐ Risk Assessment Form (3) ☐ Qualified Scientist Form (2) (required for projects involving DEA-controlled substances or when applicable)		
☐ Other ☐ Risk Assessment Form (3)		
☐ I attest to the information checked above and that I have read and agree to abide by the science fair ethics statement.

Page 31

Form 1A: Student Checklist

This is required for ALL science fair participants!

Important information:

- #1-4 must be fully completed
- For #2, the title cannot be more than 40 characters long (a space counts as a character)
- For #5, if your project involves human participants, hazardous chemicals/activities, potentially hazardous biological agents, or vertebrate animals, you MUST select Yes
- Complete #6 if applicable

Student Checklist (1A)
This form is required for ALL projects.

1. a. Student/Team Leader: _____ Grade: _____
Email: _____ Phone: _____
b. Team Member: _____ c. Team Member: _____

2. Title of Project: _____

3. School: _____ School Phone: _____
(if multiple schools, list of the team leader or list all schools).
School Address: _____

4. Adult Sponsor: _____ Phone/Email: _____

5. Does this project need SRC/IRB/IACUC or other pre-approval? ☐ Yes ☒ No Tentative start date: _____

6. Is this a continuation/progression from a previous year? ☐ Yes ☒ No
If Yes:
a. Attach the previous year's ☐ Abstract and ☐ Research Plan/Project Summary
b. Explain how this project is new and different from previous years on
☐ Continuation/Research Progression Form (7)

7. This year's experimentation/data collection:

Actual Start Date: (mm/dd/yy) _____ End Date: (mm/dd/yy) _____

8. Where will you conduct your experimentation? (check all that apply)
☐ Research Institution ☐ School ☐ Field ☐ Home ☐ Other: _____

9. Source of Data:
☐ Collected self/mentor ☐ Other Describe/url: _____

10. List the name and address of all non-home and non-school work site(s), whether you worked there virtually or on-site:
Name _____
Address: _____
Phone/email _____

11. Complete a Research Plan/Project Summary following the Research Plan/Project Summary instructions and attach to this form.

12. An abstract is required for all projects after experimentation.

Page 32

International Rules: Guidelines for Science and Engineering Fairs 2014-2025. [societyforscience.org/HSF](https://www.societyforscience.org/HSF)

Form 1A: Student Checklist (continued)

This is required for ALL science fair participants!

Important information:

- For #7, if you answered Yes to #5, the experimentation dates must occur AFTER the date was approved by SRC
- For #7, the dates must be written in mm/dd/yy format
- #8-10 must fully completed

Student Checklist (1A)
This form is required for ALL projects.

1. a. Student/Team Leader: _____ Grade: _____
Email: _____ Phone: _____
b. Team Member: _____ c. Team Member: _____

2. Title of Project: _____

3. School: _____ School Phone: _____
(If multiple schools, list of the team leader or list all schools).
School Address: _____

4. Adult Sponsor: _____ Phone/Email: _____

5. Does this project need SRC/IRB/IACUC or other pre-approval? ☐ Yes ☒ No Tentative start date: _____

6. Is this a continuation/progression from a previous year? ☐ Yes ☒ No
If Yes:
a. Attach the previous year's ☐ Abstract and ☐ Research Plan/Project Summary
b. Explain how this project is new and different from previous years on
☐ Continuation/Research Progression Form (7)

7. This year's experimentation/data collection:

Actual Start Date: (mm/dd/yy) _____ End Date: (mm/dd/yy) _____

8. Where will you conduct your experimentation? (check all that apply)
☐ Research Institution ☐ School ☐ Field ☐ Home ☐ Other: _____

9. Source of Data:
☐ Collected self/mentor ☐ Other Describe/url: _____

10. List the name and address of all non-home and non-school work site(s), whether you worked there
virtually or on-site:
Name _____
Address: _____
Phone/email _____

11. Complete a Research Plan/Project Summary following the Research Plan/Project Summary instructions
and attach to this form.

12. An abstract is required for all projects after experimentation.

Form 1A: Student Checklist (continued)

This is required for ALL science fair participants!

All science fair participants must submit a Research Plan along with Form 1A. The Research Plan MUST include the following:

- Rationale
- Research Question/Hypothesis(es), Engineering Goal(s), Expected Outcomes
- List of Materials
- Procedures
- Risk and Safety
- Data Analysis
- Bibliography
 - No less than 3 sources are required for the bibliography
 - Write the bibliography in whatever style you are using in your English class

Research Plan/Project Summary Instructions

A complete Research Plan/Project Summary is required for ALL projects and must accompany Student Checklist (1A).

- All projects must have a Research Plan/Project Summary
 - a. The Research Plan is to be written prior to experimentation following the instructions below to detail the rationale, research question(s), methodology, and risk assessment of the proposed research.
 - b. If changes are made during the research prior to competing in an affiliated fair, such changes can be added to the original research plan as an addendum, recognizing that some changes may require returning to the IRB or SRC for appropriate review and approvals. If no additional approvals are required, this addendum serves as a project summary to explain research that was conducted.
 - c. If no changes are made from the original research plan, no project summary is required.
 - Some studies, such as an engineering design or mathematics projects, will be less detailed in the initial project plan and will change through the course of research. If such changes occur, a project summary that explains what was done is required and can be appended to the original research plan.
 - The Research Plan/Project Summary should include the following:
 - a. **RATIONALE:** Include a brief synopsis of the background that supports your research problem and explain why this research is important and if applicable, explain any societal impact of your research.
 - b. **RESEARCH QUESTION(S), HYPOTHESIS(ES), ENGINEERING GOAL(S), EXPECTED OUTCOMES:** How is this based on the rationale described above?
 - c. Describe the following in detail:
 - **List of materials:**
 - **Procedures:** Detail all procedures and experimental design including list of materials, methods for data collection, and when applicable, the source of data used. Describe only your project. Do not include work done by mentor or others.
 - **Risk and Safety:** Identify any potential risks and safety precautions needed.
 - **Data Analysis:** Describe the procedures you will use to analyze the data/results.
 - d. **BIBLIOGRAPHY:** List major references (e.g. science journal articles, books, internet sites) from your literature review. If you plan to use vertebrate animals, one of these references must be an animal care reference.

Items 1-4 below are subject-specific guidelines for additional items to be included in your research plan/project summary as applicable.

1. **Human participants research:**
 - a. **Participants:** Describe age range, gender, racial/ethnic composition of participants. Identify vulnerable populations (minors, pregnant women, prisoners, mentally disabled or economically disadvantaged).
 - b. **Recruitment:** Where will you find your participants? How will they be invited to participate?
 - c. **Methods:** What will participants be asked to do? Will you use any surveys, questionnaires or tests? If yes and not your own, how did you obtain? Did it require permissions? If so, explain. What is the frequency and length of time involved for each subject?
 - d. **Risk Assessment:** What are the risks or potential discomforts (physical, psychological, time involved, social, legal, etc.) to participants? How will you minimize risks? List any benefits to society or participants.
 - e. **Protection of Privacy:** Will identifiable information (e.g., names, telephone numbers, birth dates, email addresses) be collected? Will data be confidential/anonymous? If anonymous, describe how the data will be collected. If not anonymous, what procedures are in place for safeguarding confidentiality? Where will data be stored? Who will have access to the data? What will you do with the data after the study?
 - f. **Informed Consent Process:** Describe how you will inform participants about the purpose of the study, what they will be asked to do, that their participation is voluntary and they have the right to stop at any time.
2. **Vertebrate animal research:**
 - a. Discuss potential ALTERNATIVES to vertebrate animal use and present justification for use of vertebrates.
 - b. Explain potential impact or contribution of this research.
 - c. Detail all procedures to be used, including methods used to minimize potential discomfort, distress, pain and injury to the animals and detailed chemical concentrations and drug dosages.
 - d. Detail animal numbers, species, strain, sex, age, source, etc., include justification of the numbers planned.
 - e. Describe housing and oversight of daily care.
 - f. Discuss disposition of the animals at the end of the study.
- **Potentially hazardous biological agents research:**
 - a. Give source of the organism and describe BSL assessment process and BSL determination.
 - b. Detail safety precautions and discuss methods of disposal.
4. **Hazardous chemicals, activities & devices:**
 - a. Describe Risk Assessment process, supervision, safety precautions and methods of disposal.
 - b. Material Safety Data Sheets are not necessary to submit with paperwork.

Form 1B: Approval Form

This is required for ALL science fair participants!

Important information:

- #1 must be fully completed
- The date must be written in mm/dd/yy format
- #2 will be filled out after SRC approval
 - If your project involves human participants, hazardous chemicals/activities, potentially hazardous biological agents, or vertebrate animals, it MUST receive SRC approval prior to beginning experimentation

Approval Form (1B)

A completed form is required for each student, including all team members.

1. To Be Completed by Student and Parent

a. Student Acknowledgment:

I understand the risks and possible dangers to me of the proposed research plan.

I have read the ISEF Rules and Guidelines and will adhere to all International Rules when conducting this research.

I have read and will abide by the science fair ethics statement.

Student researchers are expected to maintain the highest standards of honesty and integrity. Scientific fraud and misconduct are not condoned at any level of research or competition. Such practices include but are not limited to plagiarism, forgery, use or presentation of other researcher's work as one's own, and fabrication of data. Fraudulent projects will fail to qualify for competition in affiliated fairs and ISEF.

Student's Printed Name

Signature

Date Acknowledged (mm/dd/yy)
(Must be prior to experimentation.)

b. Parent/Guardian Approval: I have read and understand the risks and possible dangers involved in the Research Plan/Project Summary. I consent to my child participating in this research.

Parent/Guardian's Printed Name

Signature

Date Acknowledged (mm/dd/yy)
(Must be prior to experimentation.)

2. To be completed by the local or affiliated Fair SRC
(Required for projects requiring prior SRC/IRB APPROVAL. Sign 2a or 2b as appropriate.)

a. Required for projects that need prior SRC/IRB approval
BEFORE experimentation (humans, vertebrates or potentially hazardous biological agents).

The SRC/IRB has carefully studied this project's Research Plan/Project Summary and all the required forms are included. My signature indicates approval of the Research Plan/Project Summary before the student begins experimentation.

SRC/IRB Chair's Printed Name

Signature

Date of Approval (mm/dd/yy)
(Must be prior to experimentation.)

b. Required for research conducted at all Regulated Research institutions with no prior fair SRC/IRB approval.

This project was conducted at a regulated research institution (not home or high school, etc.), was reviewed and approved by the proper institutional board before experimentation and complies with the ISEF Rules. Attach (1C) and any required institutional approvals (e.g. IACUC, IRB).

SRC Chair's Printed Name

Signature

Date of Signature (mm/dd/yy)
(May be after experimentation)

3. Final ISEF Affiliated Fair SRC Approval (Required for ALL Projects)

SRC Approval After Experimentation and Before Competition at Regional/State/National Fair

I certify that this project adheres to the approved Research Plan/Project Summary and complies with all ISEF Rules.

Regional SRC Chair's Printed Name

Signature

Date of Approval (mm/dd/yy)

State/National SRC Chair's Printed Name
(where applicable)

Signature

Date of Approval (mm/dd/yy)

Page 34

International Rules: Guidelines for Science and Engineering Fairs 2024-2025. [societyforscience.org/IRB](https://www.societyforscience.org/IRB)

This form must be completed AFTER experimentation by the adult supervising the student research either virtually or on site, conducted in a regulated research institution, industrial setting or any work site other than home, school or field.

Email/Phone

Page 38

Form 2A: Student Support Disclosure Form

This is required for ALL science fair participants!

On this form, the student discloses any support provided in the completion of a scientific research project. This disclosure provides acknowledgment and verification of the project. Team members should complete one form for the project.

Student Support Disclosure Form (2A)

This form is required for ALL projects. This form may be completed before or after experimentation.

It is important to fully disclose any support provided in the completion of a scientific research project. This disclosure provides acknowledgment and verification of the project. Team members should complete one form for the project.

To be completed by the student researcher(s):
Please list the person serving in each role. (Described in the Roles & Responsibilities of Students and Adults section of the Rules.) If an individual serves in multiple roles, list fully once and by name only in other roles. Additional pages can be attached.

1. Adult Sponsor			
Name	Organization/School	Email	Phone
Relationship to student:	Expertise:	Contribution to project:	Duration of support for this project:

2. Direct Supervisor			
Name	Organization/School	Email	Phone
Relationship to student:	Expertise:	Contribution to project:	Duration of support for this project:

3. Qualified Scientist			
Name	Organization/School	Email	Phone
Relationship to student:	Expertise:	Contribution to project:	Duration of support for this project:

4. Additional Supporting Adults (graduate students, relatives, external experts, etc.) Use additional pages as necessary.			
Name	Organization/School	Email	Phone
Relationship to student:	Expertise:	Contribution to project:	Duration of support for this project:

Paid Support Disclosure:

1. Did you or your parents pay for any support for this project?

☐ Yes☐ No

If yes, explain: (Indicate any fees, tuition and/or payment to any of the individuals above and/or to a program that provided any support for this project including lab space, mentorship, documentation preparation, etc.)

AI Usage Disclosure

1. Did your project involve the use of Generative AI?

☐ Yes☐ No

If yes, please provide an attachment with Generative AI used in your project and in what elements of your project it was used.

b. Please provide the AI Prompt Log containing the prompts and responses from the Generative AI or AI Wrapper used. Be sure to remove any personal prompts which contain personal identifying information about yourself or others. If you do not have access to your prompt log, then please provide a summary of the prompts and responses involved in your project.

Attestation by Student Researcher(s):

I certify that I/we have presented the full truth regarding all of the support received in the completion of my/our research project and have not omitted pertinent information nor presented false information.

Finalist Signature:

Printed Name(s):

Date:

Page 34

International Rules: Guidelines for Science and Engineering Fairs 2026–2027, [societyforscience.org/ISEF](#)

Form 2B: Qualified Scientist Form

This form is required for projects requiring a Qualified Scientist or Direct Supervisor. This form must be completed by the Qualified Scientist BEFORE experimentation.

Important information:

- The title cannot be more than 40 characters long (a space counts as a character)
- #1-6 must be fully completed
- The box(s) at the bottom must be fully completed
- The date must be written in mm/dd/yy format

Qualified Scientist Form (2B)

This form is required for projects requiring a Qualified Scientist or Direct Supervisor. This form must be completed by the Qualified Scientist BEFORE experimentation.

Student's Name(s)

Title of Project

To be completed by the Qualified Scientist:

Scientist Name:

Educational Background: Degree(s):

Experience/Training as relates to the student's area of research:

Position/Institution: Email/Phone:

1. Please indicate what the student project will involve:

a. Human participants

b. Animals

c. Potentially hazardous biological agents (microorganisms, rDNA and tissues, including blood and blood products)

d. Hazardous substances and devices

2. Will this study be a sub-set of a larger study?

3. Will you directly supervise the student?

4. Please describe your anticipated role in this project and the duration of your support.

5. Will you provide any data; if yes, please provide source or describe

To be completed by the Qualified Scientist:

I certify that I have reviewed and approved the Research Plan/Project Addendum prior to the start of the experimentation. If the student or Direct Supervisor is not trained in the necessary procedures, I will ensure her/his training. I will provide advice and supervision during the research. I have a working knowledge of the techniques to be used by the student in the Research Plan/Project Addendum.

Qualified Scientist's Printed Name

Signature Date of Approval (mm/dd/yy)

To be completed by the Direct Supervisor when the Qualified Scientist cannot directly supervise.

I certify that I have reviewed the Research Plan/Project Addendum and have been trained in the techniques to be used by this student, and I will provide direct supervision.

Direct Supervisor's Printed Name

Experience/Training of Direct Supervisor

Signature Date of Approval (mm/dd/yy)

Phone email

International Rules: Guidelines for Science and Engineering Fairs 2026-2027, [societyforscience.org/ISEF](https://www.societyforscience.org/ISEF)

Page 35

Regulated Research Institutional/Industrial Setting Form (2C)

This form is required for any project where research was conducted at an RRI or any worksite other than home, school or field (one per site). This form must be completed **AFTER** experimentation by the supervising adult.

Student's Name(s) _____

Title of Project _____

To be completed by the Supervising Adult in the Setting (NOT the Student(s)) after experimentation:
(Responses must be on the form as it is required to be displayed at student's project booth; please do not print double-sided.)

- Research was supported at my work site:
1. The student experience at your work site included:
- | | | |
|---|------------------------------|-----------------------------|
| • Used equipment and/or received data | ☐ Yes | ☐ No |
| • Minimal interaction with our group | ☐ Yes | ☐ No |
| • Mentored by me or someone else from our group | ☐ Yes | ☐ No |
| • Worked as a sub-set of our ongoing research | ☐ Yes | ☐ No |
| • Had an independent project from our group | ☐ Yes | ☐ No |
- 2a. Please describe the independent and/or creative work done by the student in any phase of the project, but particularly in developing the hypotheses or engineering goals of the project
- 2b. What was the duration of your support of this student project?
3. Detail the student's role in conducting the research (e.g. data collection, specific procedures performed). Differentiate what the student observed and the student actually did.
4. Did you provide any data; if yes, please provide source or describe
5. Did the student(s) work on the project as part of a group? ☐ Yes ☐ No
Were there other high school students present? If yes, please list the students names and describe how their work was related or different from the work of this project.
6. If this project is under a grant and needs to be acknowledged, please list the grant statement here.

I attest that the student has conducted the work as indicated above and that any required review and approval by institutional regulatory board (IRB/IACUC/IBC) has been obtained. Copies are attached if applicable. I further understand that I will be notified and have access to the public materials to be displayed at Regeneron ISEF (as applicable).

Direct Supervisor's Printed Name	Signature	Title

Form 3: Risk Assessment

This form is required for ALL projects that must have SRC approval. If your project involves human participants, hazardous chemicals/activities, potentially hazardous biological agents, or vertebrate animals, it **MUST** have SRC approval **before** experimentation can begin.

Important information:

- The title cannot be more than 40 characters long (a space counts as a character)
- #1-5 must be fully completed
- The box at the bottom must be fully completed
- The date must be written in mm/dd/yy format

Risk Assessment Form (3)

Must be completed before experimentation; recommended for all projects. May be required for projects involving Human Participants, Hazardous Chemicals, Materials or Devices or Potentially Hazardous Biological Agents.

Student's Name(s)

Title of Project

To be completed by the Student Researcher(s) in collaboration with Direct Supervisor/Qualified Scientist: (All questions must be answered; additional page(s) may be attached.)

1. Identify and assess the risks and hazards involved in this project.

2. a) List all hazardous chemicals, activities or devices to be used; b) identify and list all microorganisms to be used that are exempt from pre-approval (see Potentially Hazardous Biological Agent rules).

3. Describe the safety precautions and procedures that will be used to reduce the risks.

4. Describe the specific disposal procedures that will be used (when applicable).

5. List the source(s) of safety information.

To be completed and signed by the Direct Supervisor (or Qualified Scientist, when applicable):

I agree with the risk assessment and safety precautions and procedures described above. I certify that I have reviewed the Research Plan/Project Summary and the International Rules, including the science fair ethics statement and will provide direct supervision.

Direct Supervisor's Printed Name

Signature

Experience/Training as relates to the student's area of research

Position/Institution

Phone or email contact information

International Rules: Guidelines for Science and Engineering Fairs 2024-2025, [societyforscience.org/ISCF](https://www.societyforscience.org/ISCF)

Page 37

Form 4: Human Participants

This form **MUST** be completed by anyone white project involves human participants. Projects involving human participants must have SRC approval **before** experimentation can begin.

Important information:

- The top box must be fully completed
- **The title cannot be more than 40 characters long (a space counts as a character)**
- The bottom box will be completed by the SRC, and experimentation can take place after SRC approval

Human Participants Form (4)
Required for all research involving human participants not at a Regulated Research Institution.
If at a Regulated Research Institution, use institutional approval forms for documentation of prior review and approval. (IRB approval required before recruitment or data collection.)

Student's Name(s)		Title of Project	
Adult Sponsor		Phone/Email	
MUST BE COMPLETED BY STUDENT RESEARCHER(S) IN COLLABORATION WITH THE ADULT SPONSOR/DIRECT SUPERVISOR/QUALIFIED SCIENTIST:			
1. ☐ I have submitted my Research Plan/Project Summary which addresses ALL areas indicated in the Human Participants Section of the Research Plan/Project Summary Instructions.			
2. ☐ I have attached any surveys or questionnaires I will be using in my project or other documents provided to human participants. ☐ Any published instrument(s) used was/were legally obtained.			
3. ☐ I have attached an informed consent that I would use if required by the IRB.			
4. ☐ Yes ☐ No Are you working with a Qualified Scientist? If yes, attach the Qualified Scientist Form 2.			

BELOW – IRB USE ONLY

MUST be completed by Institutional Review Board (IRB) after review of the research plan. All questions must be answered for the approval to be valid. (If not approved, return paperwork to the student with instructions for modifications.)

☐ Approved with Full Committee Review (3 signatures required) and the following conditions: **(All 6 must be answered)**

1. Risk Level (check one) :

☐ Minimal Risk ☐ More than Minimal Risk (a risk assessment form 3 is required).

2. Qualified Scientist (QS) Required (Form 2):

☐ Yes ☐ No

3. Risk Assessment Required (Form 3):

☐ Yes ☐ No

4. Written Minor Assent required for minor participants:

☐ Yes ☐ No ☐ Not applicable (No minors in this study)

5. Written Parental Permission required for minor participants:

☐ Yes ☐ No ☐ Not applicable (No minors in this study)

6. Written Informed Consent required for participants 18 years or older:

☐ Yes ☐ No ☐ Not applicable (No participants 18 yrs or older in this study)

IRB SIGNATURES (All 3 signatures required) None of these individuals may be the adult sponsor, direct supervisor, qualified scientist or related to (e.g., mother, father of) the student (conflict of interest).

I attest that I have reviewed the student's project, that the checkboxes above have been completed to indicate the IRB determination and that I agree with the decisions above.

Medical or Mental Health Professional (a psychologist, medical doctor, licensed social worker, licensed clinical professional counselor, physician's assistant, doctor of pharmacy, or registered nurse) with expertise related to this project.

Form 4: Human Participants (continued)

When required by the SRC, a written informed assent/consent/parental permission form is used to explain to the research participant and their parent/guardian the risks and benefits associated with participation. (See [Human Informed Consent Form](#).) Questionnaires, sample tests, etc. MUST be given to the SRC and to the parent/guardian. If the participant wishes to participate and when required, the parent/guardian also agrees, they each sign the Informed Consent Form with the date that they approve (**before** experimentation begins)

Human Informed Consent Form

Instructions to the Student Researcher(s): An informed consent/assent/permission form should be developed in consultation with the Adult Sponsor, Direct Supervisor or Qualified Scientist. This form is used to provide information to the research participant (or parent/guardian) and to document written informed consent, minor assent, and/or parental permission.

- When written documentation is required, the researcher keeps the original, signed form.
- Students may use this sample form or may copy ALL elements of it into a new document.

If the form is serving to document parental permission, a copy of any survey or questionnaire must be attached.

Student Researcher(s): _____

Title of Project: _____

I am asking for your voluntary participation in my science fair project. Please read the following information about the project. If you would like to participate, please sign in the appropriate area below.

Purpose of the project: _____

If you participate, you will be asked to: _____

Time required for participation: _____

Potential Risks of Study: _____

Benefits: _____

How confidentiality will be maintained: _____

If you have any questions about this study, feel free to contact: _____

Adult Sponsor/QS/DS: _____ Phone/email: _____

Voluntary Participation:
Participation in this study is completely voluntary. If you decide not to participate there will not be negative consequences. Please be aware that if you decide to participate, you may stop participating at any time and you may decide not to answer any specific question.

By signing this form I am attesting that I have read and understand the information above and I freely give my consent/ assent to participate or permission for my child to participate.

Adult Informed Consent or Minor Assent Date Reviewed & Signed: _____
(mm/dd/yy)

Research Participant Printed Name: _____ Signature: _____

Parental/Guardian Permission (if applicable) Date Reviewed & Signed: _____

Parent/Guardian Printed Name: _____ Signature: _____

Form 5A: Vertebrate Animals

This form **MUST** be completed by anyone whose project involves vertebrate animals where the experimentation was done at **home or school**. Projects involving vertebrate **MUST** have SRC approval **before** experimentation can begin.

Important information:

- **The title cannot be more than 40 characters long (a space counts as a character)**
- **#1-4 must be fully completed**
- **The SRC will complete the bottom box, and experimentation can take place after SRC approval**

Vertebrate Animal Form (5A)

Required for all research involving vertebrate animals that is conducted in a school/home/field research site. (SRC approval required before experimentation.)

Student's Name(s)

Title of Project

To be completed by Student Researcher:

1. Common name (or Genus, species) and number of animals used.

2. Describe completely the housing and husbandry to be provided. Include the cage/pen size, number of animals per cage, environment, bedding, type of food, frequency of food and water, how often animal is observed, etc. Add an additional page as necessary.

3. What will happen to the animals after experimentation?

4. Attach a copy of wildlife licenses or approval forms, as applicable

5. The ISEF Vertebrate Animal Rules require that any death, illness or unexpected weight loss be investigated and documented by a letter from the qualified scientist, direct supervisor or a veterinarian. If applicable, attach this letter with this form when submitting your paperwork to the SRC prior to competition.

To be completed by Local or Affiliate Fair Scientific Review Committee (SRC) BEFORE experimentation.

Level of Supervision Required for agricultural, behavioral or nutritional studies (select one):

☐ Direct Supervisor REQUIRED. Please have applicable person sign below.

☐ Veterinarian and Direct Supervisor REQUIRED. Please have applicable persons sign below.

☐ Veterinarian, Direct Supervisor and Qualified Scientist REQUIRED. Please have applicable persons sign below and have the Qualified Scientist complete Form (2).

The SRC has carefully reviewed this study and finds it is an appropriate study that may be conducted in a non-regulated research site.

Local or Affiliate Fair SRC Pre-Approval Signature:

SRC Chair Printed Name

Signature

Date of Approval (must be prior to experimentation) (mm/dd/yy)

To be completed by Veterinarian:

☐ I have reviewed this research and animal husbandry with the student before the start of experimentation.

☐ I have approved the use and dosages of prescription drugs and/or nutritional supplements.

☐ I will provide veterinary medical and nursing care in case of illness or emergency. (Fees may apply.)

Printed Name

Email/Phone

Signature

Date of Approval (mm/dd/yy)

To be completed by Direct Supervisor or Qualified Scientist when applicable:

☐ I have reviewed this research and animal husbandry with the student before the start of experimentation and I accept primary responsibility for the care and handling of the animals in this project.

☐ I will directly supervise the experiment.

Printed Name

Email/Phone

Form 5B: Vertebrate Animals

This form **MUST** be completed by anyone whose project involves vertebrate animals where the experimentation was done at **regulated research institution**. Projects involving vertebrate **MUST** have SRC approval **before** experimentation can begin.

Important information:

- **The title cannot be more than 40 characters long (a space counts as a character)**
- **#1-6 must be fully completed**
- **The qualified scientist must complete the bottom box**
- **The date must be written in mm/dd/yy format**

Vertebrate Animal Form (5B)

Required for all research involving vertebrate animals that is conducted in at a Regulated Research Institution. (IACUC approval required before experimentation. Form must be completed and signed after experimentation.)

Student's Name(s)

Title of Project

Title and Protocol Number of IACUC Approved Project:

To be completed by Qualified Scientist or Principal Investigator:

1. Species of animals used: Number of animals used:

2. Describe, in detail, the role of the student in this project: animal procedures and related equipment that were involved, oversight provided and safety precautions employed. (Attach extra pages if necessary.)

3. Was there any weight loss or death of any animal? If yes, attach a letter obtained from the qualified scientist, direct supervisor or a veterinarian documenting the situation and the results of the investigation.

4. Did the student's project also involve the use of tissues?

No

Yes; complete Forms 6A and 6B

5. What laboratory training, including dates, was provided to the student?

6. Attach a copy of the Regulated Research Institution IACUC Approval. A letter from the Qualified Scientist or Principal Investigator is not sufficient.

Form 6A: Potentially Hazardous Biological Agents Risk Assessment Form

This form is filled out by the student researcher and is required for all research involving microorganisms, rDNA and fresh/frozen tissue (including primary cell lines, human and other primate established cell lines and tissue cultures), blood, blood products, and body fluids.

Important information:

- The title cannot be more than 40 characters long (a space counts as a character)
- Sections 1-3 must be fully completed
- The SRC will complete Section 4, and experimentation can take place after SRC approval

Potentially Hazardous Biological Agents Risk Assessment Form (6A)
Required for research involving microorganisms, rDNA, fresh/frozen tissue (including primary cell lines, human and other primate established cell lines and tissue cultures), blood, blood products and body fluids.
SRC/IACUC/IBC approval required before experimentation.

Student's Name(s)

Title of Project

To be completed by the QUALIFIED SCIENTIST/DIRECT SUPERVISOR in collaboration with the student researcher(s). All questions are applicable and must be answered; additional page(s) may be attached.

SECTION 1: PROJECT ASSESSMENT

1. Identify potentially hazardous biological agents to be used in this experiment. Include the strain, source, quantity and the biosafety level risk group of each microorganism.

2. Describe the site of experimentation including the level of biological containment.

3. Describe the procedures that will be used to minimize risk (personal protective equipment, hood type, etc.).

4. What final biosafety level do you recommend for this project given the risk assessment you conducted?

5. Describe the method of disposal of all cultured materials and other potentially hazardous biological agents. If BSL-2 laboratory, include the BSL-2 checklist.

SECTION 2: TRAINING

1. What training will the student receive for this project?

2. Experience/training of Direct Supervisor as it relates to the student's area of research (if applicable).

SECTION 3: For ALL CELL LINES, MICROORGANISMS AND TISSUES - To be completed by the QUALIFIED SCIENTIST or Direct Supervisor - Check the appropriate box(es) below:

☐ Experimentation on the microorganisms/cell lines/tissues to be used in this study will NOT be conducted at a Regulated Research Institution, but will be conducted at a (check one) ☐ BSL-1 or ☐ BSL-2 laboratory (include a copy of the checklist for BSL-2). [This study has been reviewed by the local SRC and the procedures have been approved prior to experimentation.]

☐ Experimentation on the microorganisms/cell lines/tissues to be used in this study will be conducted at a Regulated Research Institution and was approved by the appropriate institutional board prior to experimentation; institutional approval forms are attached.
Origin of cell lines: _____ Date of IACUC/IBC approval _____

☐ Experimentation on the microorganisms/cell lines/tissues to be used in this study will be conducted at a Regulated Research Institution, which does not require pre-approval for this type of study. The SRC has seen and approved the research plan and supporting documentation and acknowledges the accuracy of the responses above.

CERTIFICATION - To be SIGNED by the QUALIFIED SCIENTIST or Direct Supervisor

The QS/DS has seen this project's research plan and supporting documentation and acknowledges the accuracy of the information provided above. This study has been approved as a (check one) ☐ BSL-1/☐ BSL-2 study, and will be conducted in an appropriate laboratory.

QS/DS Printed Name

Form 6B: Human and Vertebrate Tissue Form

This form is filled out by the student researcher and explains the source of the tissue. The Qualified Scientist or Designated Supervisor signs and dates to document the source and handling of this tissue (**before** experimentation).

Important information:

- The title cannot be more than 40 characters long (a space counts as a character)
- #1-3 must be fully completed
- The qualified scientist must fully complete the bottom box

Human and Vertebrate Animal Tissue Form (6B)

This form is required for research involving fresh/frozen tissue (including human and/or vertebrate animal established cell lines and tissue culture collections), blood, blood products and body fluids. All projects using any tissue listed above must also complete Form 6A. This form must be completed by the QS/DS BEFORE experimentation.

Student's Name(s)

Title of Project

To be completed by Student Researcher(s):

1. What vertebrate animal tissue will be used in this study? Check all that apply.

☐ Fresh or frozen tissue sample

☐ Fresh organ or other body part

☐ Blood

☐ Body fluids

☐ Primary cell/tissue cultures

☐ Human or other primate established cell lines

☐ Vertebrate established cell lines

☐ Exempt tissue (describe):

2. Where will the above tissue(s) be obtained? If using an established cell line include source and catalog number.

3. If the tissue will be obtained from a vertebrate animal study conducted at a research institution attach a copy of the IACUC certification with the name of the research institution, the title of the study, the IACUC approval number and date. If human tissues were used, attach a copy of IRB approval.

To be completed by the Qualified Scientist or Direct Supervisor:

☐ I verify that the student will work solely with de-identified organs, tissues, cultures or cells that will be supplied to him/her by myself or qualified personnel from the laboratory; and that if vertebrate animals were euthanized they were euthanized for a purpose other than the student's research.

AND/OR

☐ I certify that the blood, blood products, tissues or body fluids in this project will be handled in accordance with the standards and guidance set forth in U.S. Occupational Safety and Health Act, 29CFR, Subpart Z, 1910.1030 - Blood Borne Pathogens.

Printed Name

Form 7: Continuation/Research Progression Projects Form

If the current project is in a similar area of research as any previous project of the student or any team member, it is considered a continuation. Explain as completely as possible how the project is different from previous experimentation because ONLY a new and different research project is allowed. The date signed is the date the student researcher is certifying that this information is correct.

Continuation/Research Progression Projects Form (7)

Required for projects that are a continuation/progression in the same field of study as a previous project. This form must be accompanied by the previous year's abstract and Research Plan/Project Summary.

Student's Name(s) _____

To be completed by Student Researcher: List all components of the current project that make it new and different from previous research.

Components	Current Research Project	Previous Research Project: Year: _____
1. Title		
2. Change in goal/ purpose/objective		
3. Changes in methodology		
4. Variable studied		
5. Additional changes		

Attached are:
☐ Abstract and Research Plan/Project Summary, Year _____

I hereby certify that the above information is correct and that the current year Abstract & Certification and project display board properly reflect work done only in the current year.

Student's Printed Name(s) _____

Your Project's Title

- The title cannot be more than 40 characters long (a space counts as a character)
- The title MUST be the same on Form 1, Form 1A, your Research Plan, the Abstract, and all other forms that your project may require.

Checklist for Adult Sponsor (1) This completed form is required for ALL projects.

To be completed by the Adult Sponsor in collaboration with the student researcher(s):

- Project Title:** _____
- ☐ I have reviewed the student's completed Student Checklist (1A) and Research Plan/Project Summary.
 - ☐ I have worked with the student and we have discussed the possible risks involved in the project.
 - ☐ The project involves one or more of the following and requires prior approval by an SRC, IRB, IACUC or IBC:
☐ Humans ☐ Potentially Hazardous Biological Agents ☐ Microorganisms ☐ rDNA ☐ Tissues ☐ Vertebrate Animals
 - ☐ Items to be completed for ALL PROJECTS
☐ Adult Sponsor Checklist (1) ☐ Research Plan/Project Summary
☐ Student Checklist (1A) ☐ Approval Form (1B)
☐ Regulated Research Institutional/Industrial Setting Form (IC) (when applicable after completed experiment)
☐ Continuation/Research Progression Form (7) (when applicable)
- Additional forms required if the project includes the use of one or more of the following (check all that apply):**
- ☐ **Humans**, including student designed inventions/prototypes. (Requires prior approval by an Institutional Review Board (IRB):
☐ Full text of the rules.
☐ Human Participants Form (4) or appropriate Institutional IRB documentation
☐ Sample of informed Consent Form (when applicable and/or required by the IRB)
☐ Qualified Scientist Form (2) (when applicable and/or required by the IRB)
- ☐ **Vertebrate Animals** (Requires prior approval, see full text of the rules.)
☐ Vertebrate Animal Form (5A) for projects conducted in a school/home/field research site (SRC prior approval required)
☐ Vertebrate Animal Form (5B) for projects conducted at a Regulated Research Institution, (Institutional Animal Care and Use Committee (IACUC) approval required prior experimentation.)
☐ Qualified Scientist Form (2) (Required for all vertebrate animal projects at a regulated research site or when applicable)
- ☐ **Potentially Hazardous Biological Agents** (Requires prior approval by SRC, IACUC or IBC, see full text of the rules.)
☐ Potentially Hazardous Biological Agents Risk Assessment Form (6A)
☐ Human and Vertebrate Animal Tissue Form (6B) to be completed in addition to Form 6A when project involves the use of fresh or frozen tissue, primary cell cultures, blood, blood products and body fluids.
☐ Qualified Scientist Form (2) (when applicable)
- ☐ **Hazardous Chemicals, Activities and Devices** (No SRC prior approval required, see full text of the rules.)
☐ Risk Assessment Form (3)
☐ Qualified Scientist Form (2) (required for projects involving DEA-controlled substances or when applicable)
- ☐ **Other**
☐ Risk Assessment Form (3)
- ☐ I attest to the information checked above and that I have read and agree to abide by the science fair ethics statement.

Adult Sponsor's Printed Name _____ Signature _____ Date of Review (mm/dd/yy) _____
Phone _____ Email _____

Student Checklist (1A) This form is required for ALL projects.

- a. Student/Team Leader: _____ Grade: _____
Email: _____ Phone: _____
b. Team Member: _____ c. Team Member: _____
- Title of Project:** _____
- School: _____ School Phone: _____
(If multiple schools, list of the team leader or list all schools.)
School Address: _____
- Adult Sponsor: _____ Phone/Email: _____
- Does this project need SRC/IRB/IACUC or other pre-approval? ☐ Yes ☐ No Tentative start date: _____
- Is this a continuation/progression from a previous year? ☐ Yes ☐ No
If Yes:
a. Attach the previous year's ☐ Abstract and ☐ Research Plan/Project Summary
b. Explain how this project is new and different from previous years on
☐ Continuation/Research Progression Form (7)
- This year's experimentation/data collection:
Actual Start Date: (mm/dd/yy) _____ End Date: (mm/dd/yy) _____
8. Where will you conduct your experimentation? (check all that apply)
☐ Research Institution ☐ School ☐ Field ☐ Home ☐ Other: _____
- Source of Data:
☐ Collected self/mentor ☐ Other Describe/url: _____
- List the name and address of all non-home and non-school work site(s), whether you worked there virtually or on-site:
Name: _____
Address: _____
Phone/email: _____
- Complete a Research Plan/Project Summary following the Research Plan/Project Summary instructions and attach to this form.**
- An abstract is required for all projects after experimentation.**

Next Steps

- ❑ Go to the [Regeneron ISEF Rules Wizard](#) to determine which additional forms your project requires.
- ❑ Go to the [St. Mary's County Science & Engineering Fair website](#) and get the forms you need.
- ❑ Complete the forms. Turn them in to your school's Science Fair coordinator.
